§3 Subscription

3.1 The use of the app requires a subscription. The license granted under Section 2 is therefore only valid during the Trial Period (Section 3.2) after which a valid subscription is then required for use.

3.2 The subscription can be purchased by the User as an in-app purchase from the Apple App Store. The price displayed in the Apple App Store at the time of subscription applies.

3.3 The User may test the app for one month ("Trial Period") free of charge. The User immediately receives the full range of functions. Should the User wish to cancel, this may be done in the Apple App Store at any time during the Trial Period and at no cost to the User. At the end of the Trial Period, the User will no longer be able to access the app.

3.4 Should the subscription not be cancelled during the Trial Period, a subscription fee will automatically be charged to the User at the beginning of the second month. After the termination of the Trial Period the subscription may be cancelled at any time prior to the end of the respective monthly subscription period in the Apple App Store, and is otherwise automatically extended on a monthly basis by another month thereafter.

3.5 For more details on in-app purchase and subscription options, please refer to Apple's Terms and Conditions. These can be found them on www.apple.com under *Legal Department / Internet Services / Apple Media Services Terms and Conditions*.
